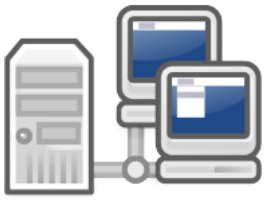
Core Competencies [1]

A **Core Competency** is a unique ability that a company acquires from its founders or develops and that cannot be easily imitated. Core competencies are what give a company one or more competitive advantages, in creating and delivering value to its customers in its chosen field.

At AbitMORE bvba, our core competencies are:

- Software Configuration Management [2] (SCM for short, sometimes also referred to with Software Change Management).
- Hosting of websites, online stores and internet based businesses for SMBs, checkout Internet



solutions and services [3] for more details.
- Provide software, hardware and expertise to SMBs to efficiently run their business, checkout ICT - Hardware and software [4] for more details.
